Dear Madam,

I am MeenakshiSundaram RM, Just Completed my BE Metallurgical Engineering, from PSG College of Technology, Coimbatore. I am one among the student to receive yearly scholarship awarded by CNS for the academic years 2007-2008 and 2008-2009. I am very thankful to you and the committee members for the kindness shown towards me. I am very happy to share with you that i am the topper in the Metallurgical Engineering 2005-2009. I am placed with Indian Oil Corporation through Campus interview.

Also I have got an offer for my Ms in Material Science and Engineering at University of Alberta, Edmonton with full scholarship and another offer for MS-PhD in Metallurgical Engineering at University of Utah, Salt Lake City, USA. with full financial Support. So i will be heading for any one of these universities for my higher education. All depends upon my visa interview.

Thanking you,

Yours Truly,

Meenakshisundaram Rm.
